A step towards Digital India.

Digital India
Power To Empower

About Our Project

Krishi Konnect will be a digital platform for the farmers where they would be benefitted with timely & accurate information about **Crops, Livestock, Products, Latest Govt. Scheme** & many more services.

It is a step for empowering Rural India.

This website is a two-in-one, Free Classifieds Platform for Agricultural Products & equipments, enabling farmers to purchase what they need & sell what they don't.

Vast Information on any Crop will be made available on this website in native languages for the convenience of the farmer.

Why This Topic?

Agriculture is a strong factor in the **Indian Economy**.

58% population in India is engaged to this occupation.

We are a major exporter in **Basmati Rice, Spices, Castor Oil & Tea**.

But yes there are some drawbacks to this **occupation**

Due to the absence of rain in some areas farmers are deprived of harvest.

While the above was a natural cause for farmer's loss many a times due to the lack of knowledge about his harvest, farmer sometimes gets cheated which may lead him and his family starve.

We, through our website "Krishi Konnect" want our farmers to be acknowledge about the latest agricultural news, govt. schemes, information about crops & weather of their locality.

A photograph of a man from behind, wearing a white turban and a brown, dirty shirt. He is standing in a lush green rice paddy, holding a long wooden tool. The water reflects the surrounding greenery. The text is overlaid on the right side of the image.

We aim at helping farmers.
We aim at paying our responsibility towards them.
